HOW TO DRIVE

A tip from the AAA's driving guide for adoles.

Buying a car, even a used car, is a major purchase and one well worth several hours of the purchaser's

The best assurance you can give yourself that you are getting a fair deal is to buy from an honest, reputable dealer. Even so, according to the AAA's adult driving guide. HOW TO DRIYE, it will pay you to do

1. Have a good independent mechanic drive the car and check it for mechanical soundness. 2. Drive the car yourself to see how it feels in

your hands. 3. Give it your own "head-to-toe" examination. After you drive the car, let it stand for about 15 minules. Then look undernsoth and see if there are any oil, gasoline or water leaks. Check all four wheel hubs for greate or oil leaks. Turn a hose on the car and find out if the trunk, windows, top or doors leak. Poke around the muffler, tail pipe, and door bottoms for signs of excessive rust.

Even if all parts appear to be in good condition, Insist on a written guarantee. An honest declar will stand behind his sale.
